

SUPERIOR CONSTRUCTION & QUALITY

UPHOLSTERED BOOTHS

Robertson's superior booth construction combines attractive styling and comfort with durability. Our booths are designed and built to last. Using only the highest quality materials, all of our upholstered booths feature heavy duty unitized frames, made with select woods and reinforced with corner blocks. The unitized frame (consisting of one piece end and center ribs) provides added durability and strength to the booth and keeps the back from "rocking" or breaking down.

1/8" THICK FOAM ADDS PADDING & SOFTENS THE LOOK OF THE WOOD

1" THICK FR FOAM, 1540 DENSITY, CAL 117 RATED, CREATES A FIRM, COMFORTABLE BACK CUSHION

1/8" THICK MASONITE GIVES THE BACK STRENGTH & RIGIDITY

3/4" THICK PLYWOOD POST PANELS

1/8" THICK FOAM ADDS PADDING & SOFTENS THE LOOK OF THE POST PANEL

NO SAG® SPRINGS REINFORCED WITH 12 GAUGE FLEX CORD PROVIDE LONG LASTING SUPPORT & COMFORT
